We also use a program called Canvas in grades 6 - 12. This is a tool for your child, to help him/her manage assignments and classroom content. Teachers will post information, power points, resources, etc. on Canvas, and students will be able to turn in their assignments through this program. All high school/middle school students are automatically enrolled in each of their courses in Canvas, and their teachers give them the login information they need. [Click here](#) for Canvas Instructions and support.
- **My Payments Plus**

This online service is a free service to help parents track their student's purchases and to keep track of how much money is in their student's account. **To sign up, visit www.mypaymentsplus.com** and have your child's Student ID available, which your child will receive once the school year begins. You may also click [here](#) for instructions. There is no cost for this service, unless you choose to deposit funds online. The email notification of low funds and the purchase history is all free. This is the only way to keep track of your student's cafeteria account. If parents have any questions about My Payments Plus, they are encouraged to contact the cafeteria manager.
