

Health & Safety Protocols 2021-2022 School Year

The following chart will serve as a guide to assist school leaders in making decisions about implementing further COVID mitigation strategies.

- Each Christian Academy school will be assessed according to their specific school data and a color designation will be assigned by school. A school's status will be displayed on the COVID information page on the Christian Academy website.
- The systematic protocols described below are designed to help keep students, families, and staff safe and healthy.
- These actions are adopted using a combination of CDC guidelines, state and county health departments guidelines. This includes wearing a mask at all times while traveling on a school bus.
- Several procedures are contingent upon guidance provided by appropriate public health agencies.
