

Families,

Christian Academy is blessed to be able to offer English Station and Southwest students a fall intramural athletic program for kindergarten through 5th grade. These offerings are only possible with a high level of participation from students as well as a high level of parent volunteers and our CAL high school athletes. There are many benefits to being involved in athletics, including good health, social interaction, self-confidence, self-discipline and personal accomplishment. Our goal is to always be Christ-honoring in all that we do, including sports.
