CHRISTIAN EDUCATION

Far more than a Bible class or chapel service squeezed in between other subjects, Christian education takes every course- math, English, social studies, science and all others - and teaches content through the lens of scripture. By doing so, students learn all topics through what is called a biblical worldview.

Christian education works to transform the character of students into Christ-likeness, with the Bible serving as the guiding tool for all instruction.

AT CHRISTIAN ACADEMY...

We desire for students to grow in wisdom {discerning mind}, stature {physical and emotional maturity} and in favor with God {spiritual relationship} and men {social relations}. For students to grow in these areas, we focus on the heart, and developing every child's heart for God. This means that we must not only teach the character of God's heart - love, compassion, grace, mercy, kindness, patience, plus others - but we must demonstrate these characteristics ourselves as teachers, staff, administrators, and coaches, as we know students often learn best by behavior that is modeled.

KINDERGARTEN AT A GLANCE

ENGLISH STATION 700 South English Station Rd. | Louisville, KY 40245

English Station participates in Terra Nova Testing, a nationally recognized testing system that calibrates academic performance of students across the nation. The most recent Terra Nova test scores indicate English Station Kindergarteners scored on average at the 74 percentile, well above the 50 percentile national average. The daily life application taught on biblical principles, nurturing Christ-like atmosphere, and rigorous curriculum make this campus the best educational value in the area for those parents seeking top-notch education in a grace-filled atmosphere.

INDIANA 1000 Academy Drive | New Albany, IN 47150

Private education has never been more accessible in Indiana than today. There is currently a bill in process in the Indiana state legislation which may increase Kindergarten voucher program access and also increase the elementary voucher dollar amount. To learn more about HB 1003 and how the state of Indiana is creating bills to support private education funding, visit www.inpea.org. The Indiana campus participates in Terra Nova Testing and the most recent test scores indicate Kindergarteners scored on average at the 81 percentile.

ROCK CREEK 3110 Rock Creek Drive | Louisville, KY 40207

Small class sizes encourage an atmosphere of learning, with academic excellence a top priority in every grade level and classroom. The parent involvement, teacher access and strong flow of communication make Rock Creek a great school choice for many parents desiring an inviting, friendly, nurturing environment. In 2012, Rock Creek Elementary was the only school in Louisville to receive the U.S. Department of Education National Blue Ribbon Award, given to a select number of schools in the country each year achieving academic excellence.

SOUTHWEST 8307 St. Andrews Church Rd. | Louisville, KY 40258

Great attention is given to Southwest campus safety, physical, emotional and spiritual, to ensure all children feel secure and supported, and may thrive under the love of teachers. Southwest participates in Terra Nova Testing and the most recent test scores indicate Southwest Kindergarteners scored on average at the 91 percentile. This year increased discounts for multi-sibling families have been implemented. These discounts will amount to roughly 40% reduction off the current tuition rate for the second and subsequent children. Southwest is the best educational value in the area for families seeking top-notch education in a patient and grace-filled atmosphere.
