From Mr. Behnken...

During these coming weeks (after 2/27 & 2/28), CAL will have the longest stretch of uninterrupted traditional school weeks that your student will experience for the remainder of the school year. These twenty-five days of consistency is shown (through data and studies) to be a time of very effective academic growth.

The reason I share this with you is so you can be encouraging your student to really “lock in” (a term they love) to school during the coming 5 weeks leading up to our spring break. This time of uninterrupted school and learning has the potential to provide the best learning gains of the spring for teenagers. There are many studies that back this up. Looking at it as opportunity, let’s work together to make the most of it and get the most return on investment with these good conditions that we are afforded.

Happy (early) Spring from the CAL HS team!

COUNSELORS CONNECTING

2026–2027 Course Scheduling Information

It is time for students to begin scheduling classes for the 2026–2027 school year. To help students understand course options, graduation requirements, and important planning information, counselors will be holding class meetings in the coming weeks.

Parents and students will be able to view the scheduling presentations on the Counselor webpage on the CAL website under the Scheduling tab.

FACTS will be open for course requests February 9–17. Students and parents may make changes to course requests during this scheduling window. After February 17, any requested changes must be made by contacting the student’s counselor.

Please note that classes are not assigned on a first-come, first-served basis, so families may complete scheduling at any time during the open window.

If students have specific questions about scheduling after the presentations, they can contact their counselor for assistance.

High School Counselors,

Jill Blount (Last Names A-G), Chrissie Moon (Last Names H-O), Jordan Heishman (Last Names P-Z)

FAMILY CALENDAR

You can always access the High school calendar online [HERE](#).
